

MiniHC 100 Mini Dry Bath

- Mini, lightweight, safe with LCD display
- Digital control over both temperature and time
- Built-in user recalibration function guarantees long term temperature accuracy
- Overheating protection
- Optional cooling function
- Interchangeable blocks for a wide variety of test tube sizes

Model : MiniHC 100

PRODUCT PARAMETERS

Cat.No.	5042102111
Temperature range	0-100°C
Temperature display accuracy	0.1°C
Minimum time taken for heating(25°C+100°C)	≤20min
Max. Heating Rate	8°C/min
Program memory	9(2steps for each)
USB interface	Support
Power	60W
Voltage/Frequency	100-240V, 50/60Hz or DC12V
Weight	≤1kg
Permissible ambient humidity	<80% RH

Temperature setting range	Room temperature -23-100°C
Temperature control accuracy	±0.5°C
Time setting range	0-999min/0-999sec
Minimum time for cooling(20°C-0°C)	≤25min
Max. Cooling Rate	3°C/min
Temperature self-calibration	Support
Error code display	Support
Display	LCD
Dimension[WxDxH]	110x162x140mm
Permissible ambient temperature	+10-40°C
