

Ohaus PA 214 Pioneer Series Analytical Balance, 210g x 0.1 Mg (230 V)

Draft shield removes completely for complete cleaning of all components within seconds

- Easy to clean analytical draft shield – all panels remove easily for cleaning
- Selectable environmental settings – three filter modes and adjustable zero tracking adjust balance sensitivity to environmental disturbances, or application requirements

Specifications & Description

Capacity (g)	210
Readability (g)	0.0001
Repeatability (g)	0.0001
Linearity (g)	0.0003
Weighing Units	mg, g, ct, oz, dwt, tical, tola, moms, baht, gr, Mesghal, N, ozt, teals
Calibration Type	External
Output	RS-232
Stabilization Time (Sec)	3
Auto Shutoff	Yes
Power (VAC)	115
Height (in)	11 19/64
Width (in)	7 45/64
Depth (in)	12 19/32
Description	Pioneer Series Analytical Balance, 210g x 0.1 Mg (230 V)
Warranty	2 year

MORE ABOUT THIS ITEM

Periodic cleaning helps avoid sample contamination and extends the life of the balance. A standard in-use cover provides added protection against spillage and minimizes damage to the display and keypad. Three user-selectable environmental settings help the balance adapt to harsh environments and other disturbances for greater weighing accuracy. An up front level indicator eliminates the need to look behind the balance during the leveling process -- a quick glance at the up-front indicator helps ensure the balance is level prior to each use.
