

Our new item is designed for clinical usage and intended for both Veterinary and Human. This unit provides quick and accurate indication of vital fluids levels. It has triple scale that gives Urine Specific Gravity(SG), Total Serum Protein(SP) and Refractive Index (RI). It's FULLY EQUIPPED with ATC that automatically adjust itself to correct temperature discrepancies during use. Capable of measuring with high accuracy and provides precise results.

It's equipped with vivid and sharp reticle chart for easy and comfortable reading. It uses ambient light only and no batteries are needed. Made by experienced craftsmen and are unlikely to break down!

Features:

- Equipped with scale measurement that provides direct reading
- Approved by strict quality and safety standards
- Durable and built to last long
- Heavy-duty and lightweight with its aluminum construction
- Easy to focus and calibrate
- Accurate testing results guaranteed
- Made with the highest and finest quality of aluminum & rubber that makes it lightweight
- Cushioned with soft & comfortable non-slip rubber
- Extremely easy-to-use and calibrate
- Comprehensive operations manual, complete with protective carrying case, and pipettes are provided for user's convenience and comfort

Specifications:

- Measuring Range:
 - Serum Protein : 0 - 12g/dl
 - Specific Gravity : 1.000 - 1.050sg
 - Refractive Index: 1.330RI - 1.360RI
- Min. Division:
 - Serum Protein : 0.2g/dl
 - Specific Gravity : 0.005sg
 - Refractive Index: 0.0005 RI
- Accuracy:
 - Serum Protein : ± 0.2 g/dl
 - Specific Gravity : ± 0.005 sg
 - Refractive Index: ± 0.0005 RI
- Automatic Temperature Compensation (ATC)
- Length : 160mm
- Weight: 240g
- Heavy duty (Durable Aluminum)

Set Includes:

- 1 x Clinical Refractometer with ATC
- 1 x FREE Cover Plate + Screws
- 1 x Sturdy protective carrying case with contoured foam
- 1 x English Operations Manual
- 1 x Pipette
